SITE · OFFICE · FINANCE

Entered once. On site.

Sitabula brings the site, the office and the finances into one flow. What is entered on site travels on to planning, reports, quantity take-offs and interim payments without being typed again. The same data is not produced twice, so re-entry and the errors it brings go down.

THE JOURNEY OF ONE WORK ITEM

Field Progress — Building, unit, area and work item; status, note, photo

→ **Progress Report** — Filter by status, subcontractor, building

→ **Schedule** — Activities are picked from real work items

→ **Daily Report** — Once the day is closed, it is the record

→ **Quantity Take-offs** — Quantity, unit price, amount

→ **Interim Payments** — Measured work moves on to payment

For the owner

See what was built on site and what each subcontractor is paid, in one place.

For the site manager

Log the work once. Don't retype it for reports, plans and take-offs.

For office and accounts

Timesheets, concrete and progress reports ready as Excel and PDF.

SITABULA

CONSTRUCTION SITE OPERATIONS PLATFORM

DOCUMENT	PRODUCT BROCHURE · 2026
PLATFORM	WINDOWS · IOS · ANDROID

Site. Office. Finance. One record.

01 · SITE

What happens on site, on record

Work is logged together with where it was done.

FIELD PROGRESS
Copy similar buildings and units to set up a site fast

DAILY REPORT
Weather, crew count and work items per subcontractor

TIMESHEETS
Flags a worker already active on another project

02 · MEASURE & PLAN

Plans and reports from the same data

Not a separate list: the site record itself.

PROGRESS REPORT
Completed, in progress, pending; overall progress

SCHEDULE
Activities per subcontractor, date range and status

CONCRETE TRACKING
Every pour with date, class, delivery ticket and amount

03 · COMMERCIAL

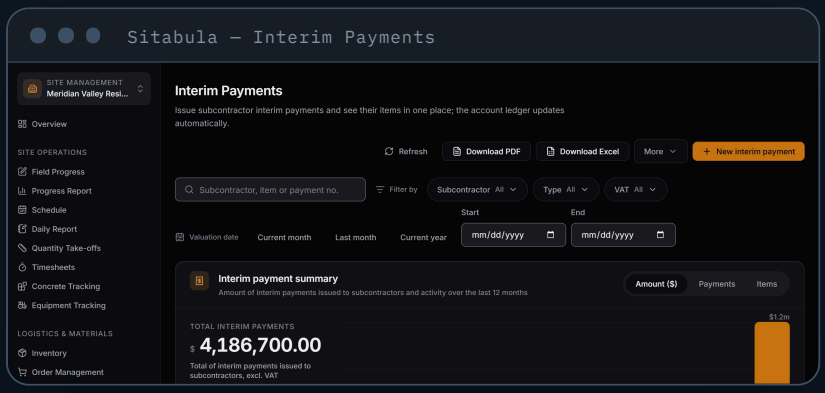

From site to payment

Work is measured, priced and carried to interim payments.

QUANTITY TAKE-OFFS
Items in an interim payment and those pending, in one table

FIELD PROGRESS
Link a subcontractor, payment type and agreement to a work item

CONCRETE TRACKING
Agreement, unit price and VAT kept with the record

INTERIM PAYMENTS

One flow, from site to payment.

Subcontractor interim payments and their line items in one place. Total amount, VAT and the last twelve months on one screen; export to PDF and Excel.
